Bühler Services
Partnering for better outcomes

Burner Inspection and Maintenance Service Package

Minimize energy costs and keep your thermal processing systems in peak condition with Bühler's Burner Inspection and Maintenance Package. For a flat fee, our specialists visit your site to inspect, clean, tune, and calibrate your burners. You'll receive a service report with actionable next steps, helping ensure optimal performance and maximum value from your installation.

This service agreement includes:

- Performance and safety inspections
- Cleaning
- Calibration for optimum air/fuel mixture
- Ignitor and flame rod replacement
- Minor repairs/adjustments
- Combustion and efficiency test
- Recommended spare part list
- Detailed inspection report
- Travel for service technician

Lock in service rates for up to 5 years with an annual contract commitment.

Total Care™

TotalCare offers a wide range of choices at varying cost and service levels to help you get the best out of your machines. Together with you, we define a customized service package for inspections, repairs, and maintenance—all designed to boost your production performance.
Contact us to learn more.
