

Matador Service package

Bühler offers an annual preventive maintenance program to ensure that your equipment operates at peak accuracy and efficiency. Our team will visit your plant and inspect your Matador MJZH to keep it running at top form destroying insect eggs. This service will ensure that your process line is performing at an optimal level and you are receiving maximum value from your investment.

This service agreement includes

Inspection service:

- Measure machine flour or semo contact surfaces
- Inspect product gaps and measure bar tolerances for wear
- Inspect running wheel for wear

Replacement service:

- Running wheel
- Impact plates
- Main seal

Detailed inspection report and recommended actions

Locked Service rates available for up to five (5) years with service agreement

TotalCare offers a wide range of choices at varying cost and service levels to help you get the best out of your machines. Together with you, we define a customized service package for inspections, repairs, and maintenance - all designed to boost your production performance.
Contact us to learn more.
