

## Cleaning & Parts Services

Expert care for your ovens, roasters and dryers

Bühler offers cleaning and tune-up services for ovens, dryers, and roasters. A qualified service engineer will visit your plant for one flat rate according to your schedule. This comprehensive service will ensure that your equipment is performing at an optimal level, and you are receiving maximum value from your installation.

### This service package includes:

- Air ducts, belt, belt-tracking, and return-rollers cleaning
- Install replacement parts (if on-site)
- Basic repairs (if parts available on-site)
- Service technician travel
- **Locked service rates for up to 5 years with annual contract commitment!**

**Competitive flat fee**

**Local parts available for fast delivery**

**Servicing US and Canada**

TotalCare offers a wide range of choices at varying cost and service levels to help you get the best out of your machines. Together with you, we define a customized service package for inspections, repairs, and maintenance—all designed to boost your production performance.

### Benefits:

- Increased product quality and yield
- Longer lifecycle of your systems
- Reduced operating costs
- Increased accuracy in your production
- Reduced equipment downtime
- Trained operators and maintenance personnel
