

ProSortX 4.0™

Industry 4.0 ready
operating environment complete
with TrueColor™ frame capture and
EasySim™ sensitivity adjustment.

ProSortX 4.0™: Take your sorting operations to the next level with greater efficiency and ease of use.

The latest machine operating software brings connectivity and simplicity to the SORTEX F

ProSortX 4.0™ builds on the success of the original ProSortX with a clean new look, Industry 4.0 readiness and a host of new features. The simple new user interface and connectivity options provide additional information to the operator and plant manager, both online and offline.

A new home screen and password protection offer peace of mind and at-a-glance sorter performance data.

TrueColor™ and EasySim™ make setup and adjustments to sorting settings quick and easy, while SORTEX Connect brings connectivity to the Bühler Insights platform to a range of digital services.

Contact us now

ProSortX 4.0 is available as standard on all new F machines and as an upgrade to existing machines - contact us now.
