Pet Food & Aqua Feed Workshop 2027

Innovations for a **better world.**

BÜHLER

Pet Food & Aqua Feed Workshop

Uzwil, Switzerland

A four day hands-on workshop at the Bühler extrusion pilot plant, utilizing twin-screw extrusion technology, grinding with hammer mills and covering the following subjects:

Course content

Quality influencing factors

Upstream of extrusion
- Optical sorting
- Fine grinding with hammer mills
- Preconditioning

Extrusion
- Benefits of single-screw and twin-screw extruders
- Screw configuration
- Application of SME and STE
- Process and density control

Downstream of extrusion
- Coating and vacuum coating
- Drying

Further quality influences
- Raw material and its conversion during extrusion
- Digital solutions
- Extrusion as a kill step, incl. validation

Aqua feed
- Getting water stability and bulk density right
- Floating, slow- and fast-sinking feed
- Micro and shrimp pellets

Pet food
- Dry kibbles
- Snacks and treats
- Co-extruded filled pillows
- Baked pet food
- Wet pet food

Other subjects upon specific interests of participants.

Target group

This workshop is intended for operation supervisors, engineering or R&D personnel and many more: people actively involved in technological aspects and feasibility considerations of extrusion.

Date

March 15 – 18, 2027

Number of participants

Min. 15 participants

Location

Extrusion Application Center
Bühler AG in Uzwil, Switzerland

Costs

CHF 4'700.-

Includes: course documentation, lunches, coffee during breaks, social event with dinner.
Excludes: hotel accommodation, travelling costs, transportation/transfer between airport, hotel and Bühler.

Accommodation

Pre-booked rooms are available at Hotel Uzwil at a special rate. After registering, you will receive a link to book your room.
