

Recharge your production process. **Restore your productivity.**

Over time, the effectiveness of machine ejectors decreases. More inputs such as air and power are required to maintain optimum yield. While the machine rejects a higher level of good product.

Specialist Bühler engineers refurbish ejectors to return them to peak performance, maintaining machine efficiency and decreasing yield loss whilst lowering air and power consumption.

You can expect to:

- Increase your profits by improving your sorting efficiency
- Maintain peak performance while reducing your downtime
- Improve the safety of your production process
- Lower your total cost of ownership

Maximum efficiency for as little as half the cost of a new unit, each with a 3 month replacement warranty.
