

Roll Service package

Bühler offers a roll exchange program to ensure that your equipment operates at peak accuracy and efficiency. Two qualified service engineers will visit your plant for one flat rate and exchange your rolls according to your schedule. This service will ensure that your equipment is performing at an optimal level and you are receiving maximum value from your installation.

This service agreement includes:

- Pick up and delivery of the rolls
- Reconditioning
- Inspection
- Calibration
- Minor repairs / adjustments
- Recommended spare part list
- Detailed inspection report
- Travel for service technician

Locked Service rates available for up to five (5) years with service agreement

TotalCare offers a wide range of choices at varying cost and service levels to help you get the best out of your machines. Together with you, we define a customized service package for inspections, repairs, and maintenance - all designed to boost your production performance.

Contact us to learn more.

Conditions:

- Daily set rate - contact for details
- US only
- One flat rate per day for two service experts
- Available for Bühler roller mills and other manufacturers MDDK, MDDL, MDDM, MDDO, MDDP, MDDQ, MDDR, and MDDT roller mills

Benefits:

Increased product quality and yield

Longer lifecycle of your systems

Reduced operating costs

Increased accuracy in your production

Reduced equipment downtime

Trained operators and maintenance personnel
